

Wireless Voice and Data Technology Solutions

Enterprise and Public Sector Organizations, IT Managers have been searching for the most cost effective and rapidly deployable solution to connect data and voice in different buildings and campus situations. Leasing Telco Lines or provisioning Fiber present serious drawbacks in Cost, Deployment Time, Reliability and create a third party dependency with your local phone company.

Email: Info@Silverbackcg.com

Wireless Bridging Solutions offer an intelligent alternative to the fiber or leased line dilemma. Wireless Data Bridges connect your systems at LAN speeds and are deployed in days not weeks or months. You may also choose to add a "Side-Band" circuit to deliver phone service and voice mail to your remote location.

Return on Investment!
